

MUHAMMAD AWWAL SALAKO

FULL-STACK ENGINEER — REACT / REACT NATIVE / LARAVEL / TYPESCRIPT

Remote (World wide) | ✉ awwalsalakomuhammed@gmail.com | +234 9035210980

PROFESSIONAL PROFILE

Full-Stack Engineer specializing in React, React Native, TypeScript, and Laravel. Demonstrated expertise in architecting scalable web applications, cross-platform mobile apps, dynamic administrative control portals, and high-concurrency logistics systems. Adept at building end-to-end solutions, from engineering robust Laravel REST APIs and database structures to constructing high-performance React/TypeScript user interfaces. Proven track record in integrating payment gateways (Paystack), real-time map streams, and deploying cross-platform apps directly to the Apple App Store and Google Play Store.

TECHNICAL EXPERTISE

Core Stack & Frameworks: React, React Native, Laravel, TypeScript, JavaScript (ES6+), Next.js, PHP, HTML5/CSS3

Frontend & Mobile UI: Tailwind CSS, NativeWind, Redux/Context API, Responsive Design, UI/UX (Figma/Adobe XD)

Dev Tools & Version Control: Git, GitHub, Babel, NPM, Yarn, Composer

Backend & API Architecture: Laravel RESTful APIs, Eloquent ORM, Database Design, Payment Gateways (Paystack), Firebase, Axios

Testing & QA: Jest, React Testing Library, Cypress, PHPUnit

Languages: English (Fluent), Yoruba (Native), Hausa (Fluent)

PROFESSIONAL EXPERIENCE

Full-Stack / Mobile Developer — Cushy Access (Nigeria)

- Architected full-stack mobile and web platform workflows using React Native, TypeScript, and robust API endpoints for consumer ordering and vendor operations.
- Engineered end-to-end features for grocery ordering, logistics tracking, and integrated digital doctor consultation suites.
- Built dedicated vendor platforms featuring full vendor onboarding, product inventory management, real-time order tracking, and automated payout systems.
- Integrated complex RESTful APIs handling real-time multi-role authentication, order dispatching, dynamic pricing, and logistics updates.
- Implemented enterprise state management, centralized error handling, and reusable component libraries for maintainability.
- Successfully published, optimized, and maintained mobile applications on both the Apple App Store and Google Play Store.

Full-Stack Developer — TadExpress (USA (Remote))

- Built high-concurrency web applications and mobile clients powering full-scale dispatch and logistics management for senders, drivers, and administrators.
- Integrated interactive Google Maps SDKs for real-time driver pickup routes, live package tracking streams, and precision drop-off confirmations.
- Engineered sender-side cross-platform application clients and administrative control dashboards in TypeScript to manage and track orders seamlessly.

Full-Stack Developer — DaasArt (Nigeria)

- Developed a full-stack e-commerce web platform for showcasing custom crack glass art creations, allowing users to submit custom requests and make secure online payments.
- Engineered backend RESTful API integrations and webhooks using Paystack for secure transaction processing and order tracking.
- Designed dynamic, fully responsive user interfaces with optimized client-side performance.

Frontend / Full-Stack Developer — TechSolutins (Nigeria)

- Built high-converting responsive company landing pages using Next.js, React, and Tailwind CSS with custom fluid animations.
- Collaborated directly with stakeholders to convert high-fidelity design mockups into production-ready web pages.

Full-Stack Developer — Verify Point (TechSolutins) (Nigeria)

- Engineered a background verification platform supporting automated criminal history, education records, employment background, and NIN checks.
- Built central administrative monitoring dashboards, web portals, and logistics driver apps to streamline verification workflows.
- Integrated backend APIs for real-time data fetching, background verification processes, and instant status updates.

EDUCATION

Bachelor of Science in Computer Science

Federal University of Technology Minna, Nigeria | Currently in 4th Year (Expected Graduation: 2028)

CERTIFICATIONS

- Responsive Web Design Certification — Paritie (2023)
